Mobile Solutions Advanced Subwoofer Enclosure Fabrication Training

This 4 day course is the one you've been waiting for. We teach Concept to completion on the most advanced, cutting edge subwoofer enclosure designs in the industry. You will learn how to correctly calculate complex enclosures, use the latest computer design software, fabricate with multiple different materials, design and fabricate irregular shapes, build your own hands on project, and much more!

Course Description (4 Days of Hands-On Training!)

- ◆ Elite Fabrication Course Instructed by Bryan Schmitt
- ◆ Work with Advanced Enclosure Design Software
- ◆ Learn the Secret 12 Minute Fiberglass Technique
- ◆ Techniques and Tricks for Fast Molding and Shaping
- ◆ Advanced 3-Deminsional Router Techniques
- ◆ Amp Rack and Trim Panel Layout and Fabrication
- ◆ Individual Hands-On Project

4 DAYS!

in Tempe, AZ

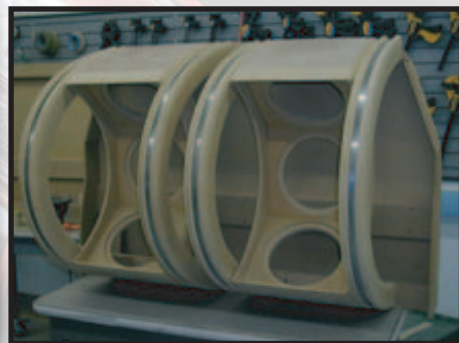

"My career as an installer/fabricator is divided into two sections; Before attending Mobile Solutions training, and after. The Advanced Fabrication class opened my mind to techniques that can not be learned by looking at build pics on some forum, and completely changed the way I look at fabrication."

John Kowanetz | Owner/Operator
